Monthly Maintenance Program 2024-2026

Contact Name: Gina Julien
Property Name: Lake Santee
Company Address: 13 Southwest Wrenn Parkway Greensburg, IN 47240

Program Specifications:

Program to include a monthly inspection of Lake Santee for nuisance aquatic vegetation, with treatment for control of vegetation present at time of inspection. Services will be provided for the contract period: April-September, 2024-2026. Due to the time interval between treatments regrowth of aquatic plants may occur causing nuisance conditions. Additional treatments beyond one per month may be provided for an additional fee. All materials used in this maintenance program will be registered, or exempt from registration, with the U.S. E.P.A. and State Regulatory Agencies and all applicators will be certified. Material selection will be made with the clients water uses taken into consideration. Some restrictions on use of water may be necessary with weed treatments. Restrictions are listed below in the PRECAUTIONS section of this proposal. Any optional items such as: lake dye, biological control agents, or others, are listed in the OPTIONS section. Nuisance vegetation for terms of this contract includes all filamentous algae which is visible from the surface or are interfering with the client use of the lake. Contract includes three applications of 0.07 ppm of chelated algaecide for planktonic algae control in April-June and 3 applications of copper sulfate from July-September This multiple year contract will be effective for the years 2024-2026 and will renew automatically. If contract is terminated prior to expiration date of December 31, 2026 the 7% multiple year discount will be due, unless cancellation is due to unacceptable performance. Total Contract Amount $130,325.70 (w/o 7% multi-year discount) plus tax. Total Contract Amount w/ discount is $121,202.90 plus tax. Program cost listed below reflects the annual contract cost with the multi-year discount. Special Terms: 2024 is the first year of a new 3 year contract period. Contract is for the treatment of algae only and includes three planktonic algae treatments that will be completed with chelated algaecides at rate 0.07 ppm Copper, and 3 treatments with copper sulfate (6 total treatments annually). If If submersed vegetation becomes a problem it can be treated for $850/acre of vegetation. Proposal includes before and after planktonic algae ID and enumeration completed in June by Aquatic Control HAB laboratory services. LAKE SANTEE IS RESPONSIBLE FOR OBTAINING ANY NECESSARY DRINKING WATER PERMITS, SAMPLING, AND REPORTING TO IDEM. Restrictions: Algae Treatments - No restrictions on water use are required, however, we recommend a voluntary 12 hour suspension of body contact with treated water for persons with known sensitive skin. Weed Treatments - May require suspension of use of treated water for domestic use, swimming, fishing, irrigation, and livestock watering. Restrictions vary with the herbicide used with a maximum of 24 hours on swimming, 14 days for livestock watering, 14 days for domestic use, and 30 days irrigation. Water use restrictions for your lake will be posted on the day of treatment, unless other notification arrangements have been made.
